JOB POSTING

TECHNICAL SERVICES / PRODUCT DEVELOPMENT ASSISTANT

Rhema Health Products Limited is a custom manufacturer of natural health products, dietary supplements, foods and drugs. Rhema is currently seeking an individual to join the Technical Services / Product Development department.

CANDIDATE REQUIREMENTS :

- Bachelor of Science Degree (preferably majoring in Food Sciences or Human Nutrition) or Food Technology Certification.
- Must have strong communication skills, well organized, good mathematical skills, and able to use MS Excel and MS Word.
- Adeptness in sensory skills (taste, odour and visual) are strongly preferred.
- Previous experience and knowledge in R&D, Food & Drug Regulations, Good Manufacturing Practices and Analytical Test Methods in a production environment are assets.
- Must be self motivated, possess extreme accuracy and precision in a lab environment, and be able to work under pressure and time-sensitive conditions.
- Individuals with food allergies may not be suitable for this position.

JOB RESPONSIBILITIES :

- Assist in the Research & Development / Formulation of products (tablets, capsules, sports nutrition, chewable vitamins, powdered drink mixes).
- Sampling raw materials, weighing out and blending table-top trials as per formulation.
- Conducting in-house taste test trials.
- Preparing samples and submitting them to clients.
- Evaluate and improve manufacturing process controls in production.
- Evaluate raw materials (ex. flavours, herbs, sweeteners) according to technical specifications of our customers and evaluate the differences between various suppliers.

START DATE : August-September 2010

Please **EMAIL** resumes to Frank Wong at frankw@rhemahealthproducts.com before July 30, 2010.
