

QUE PASA MEXICAN FOODS LTD.

Que Pasa began as a small streetfront deli specializing in freshly prepared salsas, and home style tortilla chips that were made fresh each day. As demand for their products grew, local supermarket chains asked to carry the chips and salsas in their gourmet deli departments. From there, demand grew by reputation alone and distribution now includes most major supermarket chains, warehouse clubs, and many of the major hotels and restaurants in the Vancouver area. Que Pasa also produces several select private label products, predominantly tortilla chips for natural food companies and other organic tortilla chip brands. Kitchen products, including salsas and prepared foods, are also widely distributed in supermarket and warehouse clubs. Que Pasa is currently recruiting for:
